

## **JOB DESCRIPTION**

**Job Title:** Assistant Manager/Operations Engineer

**Department:** Operations

**Job Reports To:** Assistant Virgin Islands Regional Manager

**Based:** St. Croix USVI

---

Seven Seas Water is a multinational acquirer, developer, owner and operator of water production and wastewater treatment plants and businesses. Our extraordinarily reliable solutions address the challenges of water resource management through our offerings – an alternative partnership approach to tackling water and wastewater inefficiencies for customers in the municipal, industrial, and commercial markets.

Seven Seas Water is owned by funds managed by Morgan Stanley Infrastructure, a leading global infrastructure investment platform that recently announced \$5.5 billion raised for North Haven Infrastructure Partners III, its third global infrastructure fund.

As an Assistant Manager and Operations Engineer based in St. Croix USVI, your principal responsibilities are to manage the facilities and to ensure the efficient operations of the sea water reverse osmosis water treatment plants. This position will be responsible for both leading the local Operations staff and interacting as required with clients. Maximizing plant up-time, driving efficiency, and maintaining a safe work environment are essential components of the role. This role is designated for experienced, degreed engineers, and applicants must have a four-year degree in an Engineering discipline from an accredited university. We are looking for well-rounded candidates with hands-on mechanical and electrical skills, a strong technical foundation, administrative capabilities, and an ability to lead teams. Experience in desalination, water treatment or wastewater treatment is a plus, however consideration will be given to candidates from a broad spectrum of industries and disciplines, particularly large plant environments (refineries, etc.).

Essential Duties and Responsibilities include the following:

- Work with local operators in execution of maintenance and operations activities for plant(s)
- Fill in for Asst. Regional/ Plant Manager in his/her absence
- Leadership of island plant operators
- Serve as a site leader/coordinator for plant-related projects – communicate with Caribbean Operations Support & Field Service teams, Design/Engineering, and business leadership, as directed by the Assistant Regional Manager

**Seven Seas Water Corporation**

**14400 Carlson Circle**

**Fax 1-813-855-8631**

- Ensure ongoing operating costs fall within budgeted estimates – communicate with local and department management regarding any potential variances to planned operating expense budgets or production variances.
- Hire and train a staff schedule to ensure that the water plant is appropriately staffed at all times.
- Manage personnel actions in conjunction with headquarters HR and local management.
- Ensure all preventive maintenance programs are completed on time and documented as such
- Provide ongoing training to operators on system operation and maintenance
- Provide documentation of plant condition, operations data, and accurate/timely field reports
- Make Engineering/Operations recommendations for system improvements to management
- Understand drawings including mechanical piping, P&ID's, electrical and general equipment
- Create a safe work environment and maintain clean site appearance
- Review/recommend/implement/maintain Environmental Health and Safety initiatives
- Maintain education through manufacturer coursework/reading manuals on the process and equipment, preventive maintenance, rebuilding, repairing or replacement techniques and assist in standardization and roll-out of maintenance philosophy and techniques to operators
- Take responsibility for ALL plant data entry for each phase - making sure all data is entered into the database
- Responsibility for scheduling and performing membrane cleanings
- Reviewing data to maintain production quality and quantity
- Serve as liaison with Engineering on process issues for ALL operations

Must pass background check and drug screen required for pre-employment and ongoing as required for local work when the plant is located on a customer's property. Many customers require multiple checks of this type over the course of time.

This position requires a permanent relocation to St. Croix, USVI. Relocation assistance and temporary housing while house hunting will be provided by the Company.
