

## **JOB DESCRIPTION**

**Job Title:** Operations Engineer

**Department:** Operations

**Job Reports To:** Plant Manager or Regional Manager

**Based:** St. Croix USVI

---

Seven Seas Water is a multinational acquirer, developer, owner and operator of water production and wastewater treatment plants and businesses. Our extraordinarily reliable solutions address the challenges of water resource management through our offerings – an alternative partnership approach to tackling water and wastewater inefficiencies for customers in the municipal, industrial, and commercial markets.

Seven Seas Water is owned by funds managed by Morgan Stanley Infrastructure, a leading global infrastructure investment platform that recently announced \$5.5 billion raised for North Haven Infrastructure Partners III, its third global infrastructure fund.

As an Operations Engineer based in one of our global plants, your principal responsibility is to ensure the efficient operations of the sea water reverse osmosis water treatment plants. Direct support of the Plant Manager in leading the local Operations staff and interacting as required with clients is expected. Maximizing plant up-time, driving efficiency, and maintaining a safe work environment are essential components of the role. This role is designated for entry level to two years' experience degreed engineers, and compensation is commensurate with that level of experience only. Applicants must have a four-year degree in an Engineering discipline from an accredited university.

Essential Duties and Responsibilities include the following:

- Work with local operators in execution of maintenance and operations activities for plant(s)
- Work with Operations Manager to prepare budgetary estimates for annual operating costs
- Indirect leadership of island plant operators
- Ensure effective communication with Caribbean Operations Support & Field Engineering teams, Design/Engineering, and business leadership
- Ensure all preventive maintenance programs are completed on time and documented as such
- Provide ongoing training to operators on system operation and maintenance
- Provide documentation of plant condition, operations data, and accurate/timely field reports
- Make Engineering/Operations recommendations for system improvements to management
- Understand drawings including mechanical piping, P&ID's, electrical and general equipment
- Create a safe work environment and maintain clean site appearance
- Review/recommend/implement/maintain Environmental Health and Safety initiatives
- Maintain education through manufacturer coursework/reading manuals on the process and equipment, preventive maintenance, rebuilding, repairing or replacement techniques and assist in standardization and roll-out of maintenance philosophy and techniques to operators

**Phone 1-813-855-8636**

**Fax 1-813-855-8631**

- Take responsibility for ALL plant data entry for each phase - making sure all data is entered into the database
- Responsibility for scheduling and performing membrane cleanings
- Reviewing data to maintain production quality and quantity
- Serve as liaison with Engineering on process issues for ALL operations

Must pass a pre-employment background check and drug screen, along with an additional security/background check and drug screen for the owner of the property on which the plant is located.

This position requires a permanent relocation to St. Croix, USVI. Relocation assistance and temporary housing while house hunting will be provided by the Company along with transportation expenses to the work location.

Submit your resume to [jobs@7seaswater.com](mailto:jobs@7seaswater.com). Our company website is [www.sevenseaswater.com](http://www.sevenseaswater.com). Seven Seas Water is an equal opportunity employer. All applicants will be considered for employment without attention to race, color, religion, sex, sexual orientation, gender identity, national origin, veteran, or disability status. In compliance with federal law, all persons hired will be required to verify identity and eligibility to work in the United States and to complete the required employment eligibility verification form upon hire.
