Newton, Port-of-Spain  
Trinidad

Dear Mr. Kennedy Lord,

**Re: Acknowledgement of the Seven Seas Water Group's Grant to MOBak Foundation**

I am grateful for your generous donation of \$2,000usd towards the MOBak Foundation Transitional Home. We are humbled by your commitment to our work with children and youth involved in Trinidad and Tobago's Child Protection Services who are at high risk of homelessness, lack stable guardianship, and have often been made further vulnerable because of the trauma they experienced. Your gift will enable young people to stabilize their lives, increase academic achievement and realize their potential.

As you know, the young people we serve have faced extraordinary challenges in their young lives and contend with tremendous instability throughout their time in the foster care system. Unpredictable living environments and a lack of familial support result in a profoundly negative trajectory for these young people. With the assistance of MOBak Foundation, children and youth in our Home are provided with stable housing in a community-embedded home environment.

Thanks to your support, young people in our program will receive stable housing and access to educational support. They will connect with trusted, caring, and supported adults who will help them overcome barriers, meet their goals, and transition to healthy and successful adulthood.

We are so grateful to the Seven Seas Water Group for helping us help young people move through them. Together, we will create transformative outcomes for marginalized and disadvantaged children and youth. We believe in the incredible potential of young people from foster care, and we thank you for sharing in our belief!

With appreciation and gratitude,

Mr. Mobafa Baker  
Executive Director
